04/15/2024 06:21 PM - Oleksandr Ivanov

Status:	Closed	Start date:	04/15/2024
Priority:	Normal	Due date:	04/16/2024

Description For example, if the current nested level of the list item is 4, the only nested level 3 for the next element will be rendered correctly. If the next element has the level 2 or 1 it will be rendered as a level 3. That is wrong.
